

Shipwell TMS for Microsoft Dynamics® 365 Finance and Supply Chain

Certified gateway for TMS powered by NMB solutions

Shipwell TMS for Microsoft Dynamics provides TMS integration with Microsoft Dynamics financial systems. In partnership with NMB Solutions (a Microsoft Gold Business Applications Partner), the Gateway for TMS provides secure, real-time and easy-to-manage integrations for Microsoft Dynamics® 365 Finance and Supply Chain (D365 F&S) into Shipwell's award winning platform. Customers can quickly deploy certified, fully-integrated, best-in-class TMS solutions to optimize and automate their logistics supply chains.

Combining a powerful TMS, advanced visibility and integrated logistic network, Shipwell centralizes the entire supply chain operation in a single solution, maximizing value at a lower total cost of ownership. From planning and procurement all the way through execution and settlement, Shipwell provides automation, comprehensive tracking, exception management and advanced analytics at every step, empowering our customers to uncover efficiencies, proactively address delays and reduce spend across the supply chain.
